What Is the Future Continuous Tense?

The future continuous tense describes actions that will be ongoing at a particular point in the future. It emphasizes the process or activity occurring over a period rather than a single, completed event.

Formally, the future continuous tense is constructed using the auxiliary verb "will be" followed by the present participle (verb + ing).

Subject + will be + verb-ing

Let's analyze the two key sentences from the prompt:

1. "This time next week, I will be at a vertical farm."

(Note: The second example appears incomplete; perhaps it refers to "In [a specific time], I will be doing something." For clarity, we'll assume it relates to the use of "In" as a time expression initiating a future continuous action.)

Breaking Down the First Example: "This time next week, I will be at a vertical farm."
