

`<div>`

`<div>`

`<div>`

`<div>`, `<div>`, `<div>`, and others.

Start with Simple Exercises

Begin by creating simple web pages, such as a personal profile, a list of favorite books, or a basic contact form.

Key HTML Concepts to Practice Using W3Schools Tools

As you progress, focus on mastering core HTML concepts. Here are some essential topics with recommended practice activities:

1. Structuring Content with HTML Tags

- Practice creating headings (`<h1>`

`<h2>` to `<h6>`

- Use `<div>` to define sections.

- Use `<div>`

- `<p>` tags for paragraphs.

- Incorporate `<div>`

`<div>` AND `<div>` FOR LAYOUT AND INLINE STYLING.

2. CREATING LISTS AND TABLES

- PRACTICE ORDERED (‘

’) AND UNORDERED LISTS (‘

’), INCLUDING LIST ITEMS (‘

◦ ’).

- BUILD TABLES WITH ‘
