Please I Need Help On This My Teacher Is Not Good At Explaining! I Attached A Photo With The Questions

Many students face the common challenge of understanding academic concepts when their teachers struggle to explain topics clearly. This situation can lead to frustration, confusion, and poor academic performance. If you find yourself in this predicament, don't despair—there are effective strategies you can adopt to grasp the material better, even when your teacher's explanations fall short. In this article, we'll explore how to approach learning independently, what steps to take when explanations are inadequate, and how to utilize various resources to succeed academically.
