As A Group, they experienced a fun-filled day on the golf course that was both affordable and memorable. This article explores the details of their outing, including costs, tips for planning your own budget-friendly golf trip, and the benefits of group golfing. Whether you're a seasoned golfer or a beginner, understanding how to optimize your golf outing can lead to an enjoyable experience without breaking the bank.

Understanding the Costs of a Group Golf Outing

Breaking Down the Expenses

When planning a golf outing for a group, it's essential to understand the key expenses involved. In this case, the primary costs included:

- **Green Fees:** \$7 per person
- **Golf Cart Rental:** \$12 per cart (typically shared among two or more players)

These costs can vary widely depending on the golf course, time of day, and location. However, their total expenditure remained quite affordable, especially considering the overall experience.

Calculating the Total Cost Per Person

For a group of four friends, the total costs would look like this:

1. **Green Fees:** $4 \times \$7 = \28
2. **Golf Cart Rental:** Since one cart can typically accommodate two players, two carts are needed for four people, costing \$24 total, or \$12 per person.

Total per person: \$7 (green fee) + \$12 (cart rental) = \$19

This breakdown reveals that a fun day of golf can be surprisingly economical, especially for groups looking to enjoy the sport without high expenses.
